- The draw period for the trial will open on April 25, 2022 at 12pm EST. Entries will be awarded by random draw of all entries received between 12pm EST on April 25, 2022, and 12pm EST on April 27, 2022.
- Trial entry will close at the end of the draw, if the trial and wait list are deemed full. If the trial and wait list are not deemed full, the trial will remain open for entries until they are deemed full or the day of the trial.
- We will not be taking payment until you are given a space in the trial. If you are given a space in the trial, you will receive information on how to submit payment. You will then have five (5) business days

to submit payment by **CHECK OR MONEY ORDER ONLY**.

Entry Method

All entries will be online via the link to the NACSW™ trial entry form provided. Paper and phone entries will not be accepted. Completing the form is not a guarantee of entry. You will receive a confirmation email from lisa@nose-it-all.com to let you know if your entry has been given a space in the trial.

Entry Requirements & Selection

A Qualified Entry is one that meets all the following criteria:

1. Complete the online trial entry during the draw period listed above.
2. The Handler is a NACSW™ member for the 2021-2022 membership year (8/1/21 - 7/31/22).
3. The Dog is registered with the NACSW™.
4. Dogs participating in a trial must be at least one year of age.
5. The Dog has achieved the ORT title (passed all 3 odors) and prior title level at least 14 days before the trial opens for entries. This applies to all levels effective April 1, 2021.
6. Qualified Entry for ELT – Dog has earned the NW3 Elite title but has not yet earned the ELT-CH title.

Trial spaces will be determined in the following manner:

- Spaces will be awarded by a random draw of all Qualified Entries received during the draw period listed above.
- In the event that you are having technical difficulties with the entry system, please email trialentry@nacswnet.net prior to the end of the draw period.
- No dog will be given a space in more than one trial of the same level at a single event.
- You may enter multiple dogs for entry in the draw. However, only one dog/handler per title level will be accepted into the trial. Entry will go to the dog selected in the draw – you may not swap to an alternate dog. If multiple dogs are selected in the draw, you may select which dog you wish to enter. Once a dog has been entered as a second dog/handler entry, you may not swap handlers after the draw to change the entry to a first dog/handler unless the trial is not full.
- If a trial level is not full after the draw of Qualified Entries, then there will be a Secondary Draw of any entries received that did not meet the ORT title or title requirements. These entries will be accepted pending completion of the requirements. **Note:** Dogs must earn their ORT title and prior title level at least 3 days prior to the trial date to be eligible to compete. If the required title or ORT title is earned less than 14 days prior to the event, it is the competitor's responsibility to notify the host that the requirement has been completed.
- If the trial and waitlist are not full after all entries received during the draw period have been processed, entries will continue to be accepted in the order they are received until the trial and waitlist are deemed full.
- For Exhibit Only Dogs (FEO): Dogs running FEO are not eligible to receive titles or earn placement ribbons. FEO results will not be included in the posted trial results. If space remains after all Qualified Entries are accommodated on May 20, 2022, then we will offer spaces for those who wish to run a dog For Exhibition Only (FEO). Second dog/handler FEO entries on the same day will be offered spaces after May 20, 2022.
- The trial host of an event has the right to refuse entry of any competitor or dog for just cause as approved by the National Trial Committee. Just cause includes lack of adherence to NACSW™ rules and guidelines and the policies outlined in each event entry premium.
- Some trial entries may be given priority entry based on contributions to the organization and the trial process.

You will be notified via e-mail of the results of the random draw by 12:01AM EST on May 4, 2022. If you have a spam blocker on your email account, please configure it to allow email from lisa@nose-it-all.com in order to ensure delivery of confirmation and information about this trial.

You will then have five (5) business days from notification to complete your payment by check or money order to confirm your space in the trial. Checks or money orders should be made payable to “Lisa Basial” and mailed to Lisa Basial, 1009 Rockledge Drive, Carlisle, PA 17015. **Please make a note on your check or money order indicating for which trial(s) you are submitting payment.**

If you receive a spot and do not plan to accept the entry, please email us at lisa@nose-it-all.com as soon as possible to let us know. We have no way of knowing if you have received the notification. This will allow us to keep our competitor lists and waitlists up to date. This also gives the next person on the waitlist time to make arrangements to attend if you do not want your spot.

A waiting list for alternates will be started as soon as entries fill. Alternates will be contacted when a space opens and they are first on the waitlist. Depending on last minute trial logistics, the host may opt not to fill cancelled spaces.

NACSW™ reserves the right to cancel a trial if minimum entry numbers are not met.

Be sure you read and understand the guidelines for this trial before entering. By submitting a registration for this NACSW™ Trial, you acknowledge that you have read, understand, and accept the policies and liability information of NACSW™.

LOCATION DETAILS

Trial Conditions

Modeled after real-life detection work, NACSW™ trials are held in many different locations, with a variety of terrain, under varying weather conditions. Dogs and handlers need to be able to safely negotiate a variety of surfaces, including but not limited to steps, tile, linoleum, carpeting, gravel, asphalt, uneven surfaces, and slippery footing. Handlers should be prepared to deal with a variety of weather conditions, including heat, cold, rain and snow. Trials frequently require covering extensive distances to get to and from the parking area to each of the search areas and generally require that this be done across natural, uneven surfaces. Handlers should be prepared for the physical demands and must be able to navigate the terrain with their dog accordingly. Participants should expect to spend most of the day outside or in their vehicles as there are rarely indoor crating options at trials. Please be prepared for you and your canine partner to deal with all these varying environmental challenges. Handlers should familiarize themselves with potential regional risks and health concerns that may affect themselves or their dogs. Handlers agree that they are entering this trial at their own risk.

ADA Site Specific Conditions

This trial location is a festival grounds. Competitor parking will be on an asphalt/gravel parking lot. Bathroom may be a porta-potty. The pathways, search areas and dog potty areas may require you to navigate steps, tile, gravel, asphalt, paved pathways, unmanicured dirt pathways, grassy areas, uneven surfaces and slippery footing. Inside search areas and paths thereto may have varying surfaces such as carpet, tile, stone or wood flooring, some of which may seem slippery, and may require navigation of flights of stairs for ingress and/or egress. The search areas and parking are spread out so there will be long walks to some search areas that will involve little elevation changes. Driving to and from search areas may or may not be required and/or possible. Determination will be made the day of the trial. Due to unforeseen conditions, such as weather or change in availability of areas at the location, the expected search areas, parking, and pathways to the search areas may be modified at the last minute.

Reactive Dog Parking

There will be reactive dog parking at this trial. Please email lisa@nose-it-all.com if you wish to reserve a reactive dog parking space. Due to unforeseen conditions, such as weather or change in availability of areas at the location, this policy may be modified at the last minute.

Unentered Dogs

QUIET and well-behaved unentered dogs may be brought to the trial. Unentered dogs must remain in the competitor's vehicle during the trial day. There will be ample potty areas, but unentered dogs should not be allowed to "play," exercise, or train on the trial grounds.

RV Parking

There is limited RV parking available. We can accommodate RVs in the parking lot, but **DO NOT** assume that we can accommodate your RV. **Overnight RV parking on site may be permitted for an additional fee.** You **MUST** contact lisa@nose-it-all.com in advance to make sure there is space for your RV. Due to unforeseen conditions, such as weather or change in availability of areas at the location, this policy may be modified at the last minute.

Running Vehicles or Generators in the Parking Lot

Limited running of vehicles or generators in the competitor parking lot is permitted only to take the edge off of

the heat. Running your vehicle for the entire day is not permitted. Please be considerate of your neighbors in the parking lot. If you are inconveniencing your neighbors in any way by running your vehicle, you will be required to move away from the main parking area. It will still be your responsibility to monitor the progress of the trial and no one will come to get you when it is your turn to run. Due to unforeseen conditions, such as weather or change in availability of areas at the location, this policy may be modified at the last minute.

Smoking

Smoking, including the use of e-cigarettes, is not allowed on this trial site.

Dog Policies

- All dogs must be on a 6' leash at all times when not being tested. No flexi-leashes while not participating in a competition search.
- Dogs that need space from dogs may wear a red bandanna, to be provided by the dog's handler, to help signal others that the dog needs extra space from other dogs.
- Dogs will be toileted in designated areas and handlers must pick-up and dispose of waste in designated containers.
- Dogs and handlers must stay in designated areas to avoid contaminating testing space, interrupting a test or viewing any part of the testing.

Females in Season
